

City of Kansas City, Missouri Job Class Specification

Job Title: EPIDEMIOLOGIST

Department: HEALTH

Job Code: 4031

Status: EXEMPT

Grade: ME-G

Summary

This is highly responsible professional work in directing the activities of a municipal program established to provide to the community and policy makers with analyses and interpretations of data that characterize the health of the population and the influences that affect the public's health.

Work involves responsibility for the development, promulgation, and coordination of procedures to be followed for receipt of, storage of, access to, analysis of, and interpretation of data of various types. An employee in this classification consults with and advises community health professionals and policy makers on matters related to the public's health. This employee will provide technical assistance to governmental and other requesting entities within the metropolitan area for analyzing and assessing data, programs, and initiatives. Work requires independent initiative and decision making ability within the framework of laws and regulations under the general direction of the Health Director.

Duties and Responsibilities

- Negotiates and secures health related data from various sources, assuring data security and compliance with existing regulations and agreements that protect the identity of individuals and other sensitive information.
- Develops analyses and assessments of health and other related data in conformance to prevailing public health and scientific practices.
- Develops or assists in the development of health assessment survey instruments used to gather specific health information from select population groups.
- Participates in public health research collaborations with other health professionals.
- Prepares and presents articles, speeches, lectures, and media interviews, concerning various aspects of the community's health.
- Prepares and conducts technical trainings in general epidemiology and in specific topic areas for public health workers, medical practitioners, and other interested individuals.
- Represents the Director in conferences, meetings and negotiations with federal, state, local and community health and medical organizations.
- Performs related duties as required.
